

# RAKSHITHA H P

Data Science Undergraduate | Python & SQL  
rakshurakshitha182@gmail.com | +91 8088395155 | Bangalore, India | [LinkedIn](#) | [GitHub](#)

## OBJECTIVE

Detail-oriented Data Science undergraduate (4th year) with hands-on experience in Python, SQL, data cleaning, and visualization. Eager to contribute as a Data Analysis Intern — organizing datasets, supporting dashboards, KPI tracking, reporting, and business analytics in a remote setting.

## SKILLS

### Technical Skills

- Python, SQL / MySQL
- Excel, Google Sheets
- Power BI, Tableau
- Data Cleaning & Validation
- Data Visualization
- KPI Tracking & Analytical Reporting

### Tools & Technologies

- Flask, Node.js, Express
- REST APIs, Docker, Scikit-Learn

## INTERSHIP EXPERIENCE

### Python Intern | EmbeddedFru (Remote)

July 2023 – January 2024

- Organized and processed business datasets using Python — applying data cleaning and validation for structured, analysis-ready outputs.
- Executed SQL queries to extract, filter, and aggregate records from relational databases, supporting reporting and data quality improvement.
- Developed Python applications for data processing and workflow automation; applied OOP principles for modular, maintainable pipelines.

**Certificate:** [Machine Learning with Python](#) | [SQL with Python](#) | [OOPs Concepts with Python](#)

## PROJECTS

### Role-Based Academic DBMS

Node.js · Express · MySQL

College Automation System — Full-Stack Web Application

- Designed role-based access for Admin, HOD, Faculty, and Student workflows with strict privilege separation and auto-generated credentials.
- Faculty manages attendance and marks; SGPA auto-calculated; notifications auto-triggered on academic record updates.

### AI-Based Food Detection & Nutrition Analysis

Python · ML · Data Visualization

B.E. Mini Project

- Trained an ML model to classify food items from images and output nutritional data — end-to-end pipeline from raw input to structured insight.
- Performed data preprocessing, feature engineering, and model evaluation; built visualizations for nutritional trends and model performance.

## EDUCATION

### B.E. – Data Science (4th Year)

MVJ College of Engineering, Bangalore  
2024 – 2027 | AIMA, Data Structures, DBMS, Data Visualization, Big Data Analytics.

### Diploma – Computer Science / IT

Siddaganga Polytechnic, Tumkur  
2021 – 2024 | Basics of Programming, Networking, Full stack development,

## EXTRACURRICULAR ACTIVITIES

- Participated in 3+ Hackathons — [Maharaja Institute of Technology](#), [Sapthagiri NPS University](#), [Project Expo – MVJ College of Engineering](#).
- Dept. Co-Ordinator – [Vertechx Event](#): managed end-to-end event logistics with strong organizational discipline.
- Web Solutions Strategist – Toastmasters International, District 92: communication, leadership, and digital reporting skills.
- Content Member – Software Development Club: created structured technical documentation and knowledge-sharing content.
